***Bilge Pump Test** To properly check the bilge pump, you need to put enough water in the bilge to activate the pump and make sure that it is removing the water as needed. Simply hearing the pump come on does not mean it is working. We do recommend that you do this, or we can do it for you for an **ADDITIONAL \$42.00 each.**

Bilge Pump Test **For** Pass Fail

Bilge works with Battery Switch: On Off **Aft** Pass Fail
